DETAILED ACTION

Allowable Subject Matter

Claims 5-13 are allowed.

The following is an examiner's statement of reasons for allowance: The limitations of a drive axle for a self-propelled work machine with two traction motors spaced apart and a hydraulic pump motor placed axially between the two and at a right angle is not taught or reasonably suggested by the cited art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Collins, Unger, Kluver et al., Schuh, Elgas and Nagai et al are cited to illustrate similar industrial truck drive systems..
